AJAX Dental Teaching Simulation System

AJAX SM-1

Product Features:

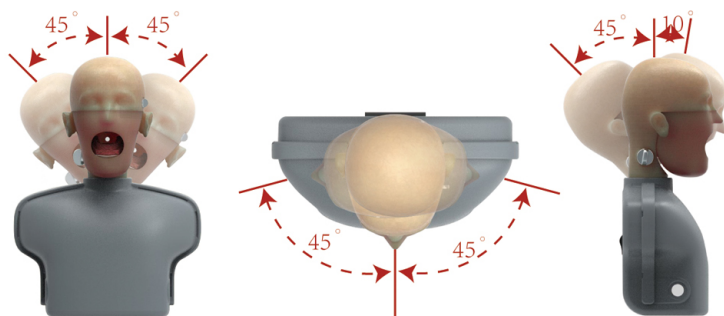

- Designed for four hands operation training, convenience for two people group trainings.
- Shoulder movement controlled by air; fast control with no need electricity; simple structure, reliable and durable.
- The system can be stored under the desk after training, saving a lot of space.
- The bottom of The simulation system equipped with wheels for easy movement, the wheel can be locked for any position.
- The hangers at two sides are rotatable, can be adjusted as per doctor requested, can also be folded after using.
- Build in pure water system with 1.5 L water bottle which is good enough for the training room which is without water inlet pipeline.
- Build in sewage recovery system with 1.5 bottle, which is good enough for training room which is without blow off-line line.
- Build in air ejector system (central suction system is available as optional).
- Build in suction filter.
- Large instrument tray with silicon pad.
- 1pcs of AJAX D2 doctor stool with 4 function.
- Equip with cooling lamp with sensor control.

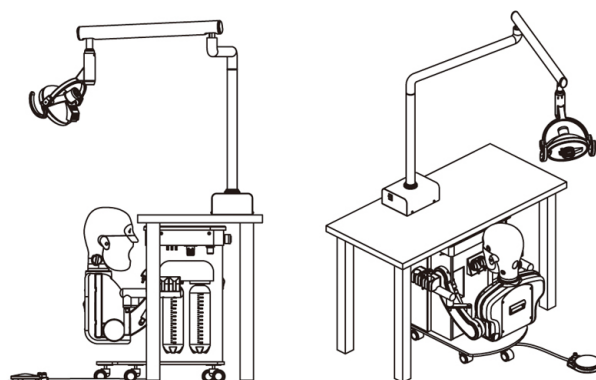

Ajax Phantom Head

Product features :

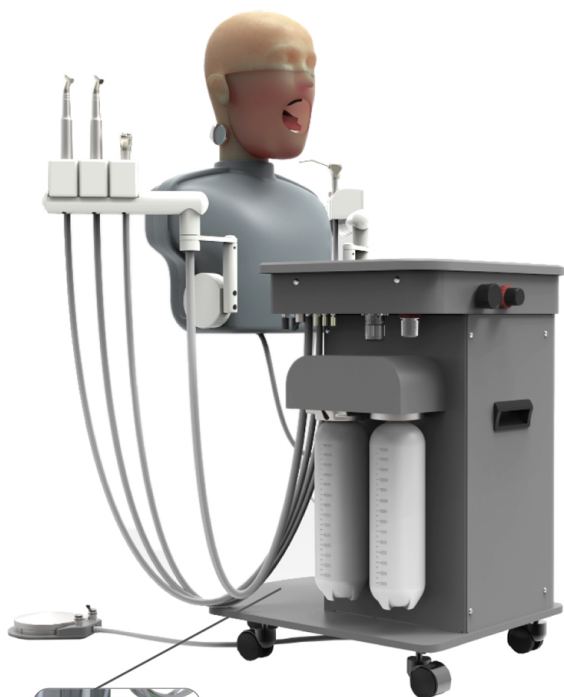

- The phantom head and the body were designed by 1:1 scale as human being, one time forming with high quality material.
- Jaw holder produced by fine aluminum casting.
- The jaw movement correctly simulate the movement of the human being's.
- The jaw is installed by magnet method, which can be detached very easily.
- The teeth module is fixed by magnet for easy replacement, can compatible for 28 and 32 teeth.

Small size, can be stored under the desk , saving a lot of space

Build in Junction box

Wheel locking

The bottom of The simulation system equipped with wheels for easy movement, the wheel can be locked for any position.

Accessories
