Dentist's module

World-leading digital control technology

1

2

- 1 / 2 Option
Trolley type Dentist's module

1

2

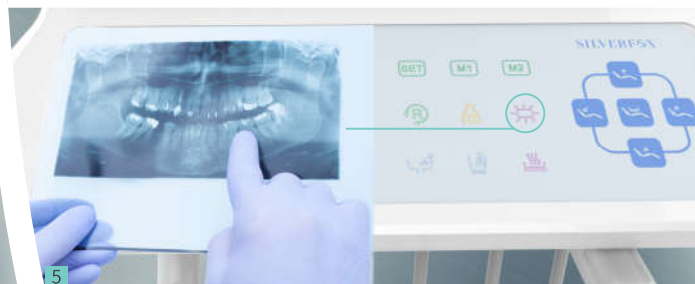

3

- 1 / 2 / 3 Touch control system
Easy control with surgical gloves
Glass control panel
Easy clean with alcohol or disinfectant
Precise air pressure adjustment

4

5

- 4 / 5 Down mounted handpiece holder
X-ray viewer
Easy switch to X-ray viewer

Headrest & Armrests

Unique ergonomic design

1

2

5

1 Motoric headrest

Extension and inclination of motoric headrest can be adjusted to optimum access to the treatment site

2/3/4/5 Comfortable back rest

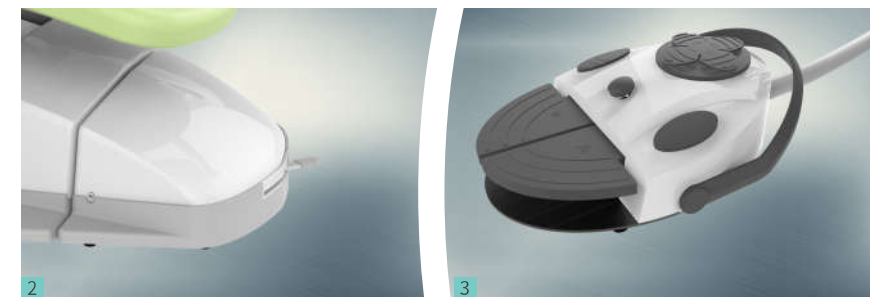

Positioning using the OrthoMotion function is particularly well suited for treating elderly or disabled patients, the backrest and seat retain the same angle, protecting the lumbar vertebra

Swiveling armrest

Chair & Foot Control

1

2

3

1 Streamline backrest

Easy for four-handed technique

2/3 Proportional foot control

Comfortable and precise speed regulation of rotary instruments, spittoon cleaning and adding water

Separable case

The separable case idea improved compatibility and flexible

Assistant`s module

Easy,Concise,Flexible

1 / 2 / 3 Assistant`s module

Mounted include a tray with four holders on a stable arm that allows the assistant to place the unit in a wide range of positions
Strong saliva suction and Weak saliva suction
Three ways syringe
LED Curing Light(Optional)

Water Unit

1 / 2 / 3 Swiveling ceramic spittoon

The water bowl can spin 90° for the benefit of the assistant,make it easier for patients to rinse their mouths. The bowl and faucet of the water supply system enjoy an excellent level of mobility to adapt to the various needs of patients

LED Operating Light

Smart & gentle design

1 / 2 / 3 / 4 LED Operating light

Triaxial LED light can be controlled by sensor or panel

Working Stool & Other

1 / 2 / 3 Dentist stool

Easy positioning of the back rest, tilt, up & down

4 / 5 / 6 High quality electromagnetic valve made in USA

Automatic thermostatic system

High quality air / water tubes made in USA

Top View

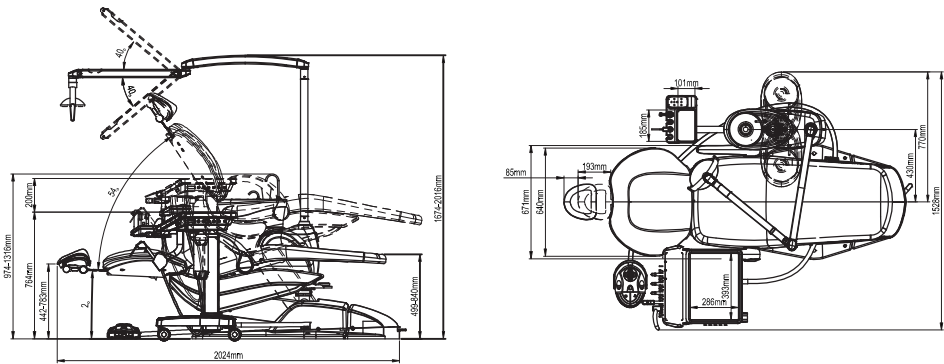

All for Quality

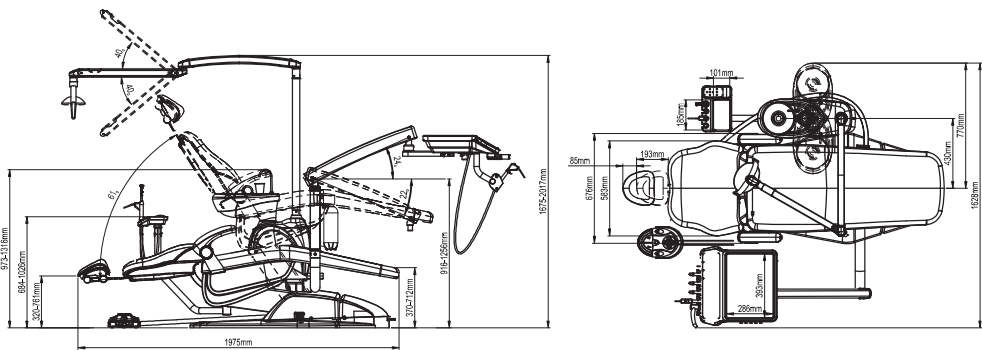

1 / 2 / 3 / 4 Silverfox is not just simply assembling factory, instead, we have 9 workshops including most processes like metal workshop , painting workshop, circuitboard workshop, sponge and upholstery workshop etc. With every process in house, we are able to guarantee every part of our products are strictly controlled under ISO13485 quality management system.

Many advanced machine has been equipped in IQC and production line to reduce the man-made mistake, and enhance the craft precision, such as robot welding machine, laser cutting machine, CNC etc.

Product Specification

Working environment	Temperature 5-40℃
	Humidity ≤ 80%
	Air pressure: 0.55——0.80Mpa , > 55L /min , no oil
	Water pressure: 0.2——0.4Mpa , > 10L /min, hardness < 25
	Power input : AC100-120V / A.C.220 V±22 V
LED light	Power frequency : 50 /60 Hz±1 Hz
	Power input: A.C.12V internal power supply 20VA
	Illuminance: 5000lx-20000lx thermal radiation < 200W/ m²
	Color display index: > 85 Ra
Patient chair	Power input: D.C.12V internal power supply
	Bearing capacity: 1350N(135KG)
	Headrest bearing capacity: 300N(30KG)
	Headrest moving range: 85mm
	Backrest working range: 125-177°
Dentist`s module	Moving to highest point : 730 mm
	Moving to lowest point : 455mm
	Hanging type instrument tray: > 270°horizontal rotation > 440mm vertical movement,bearing ≤2.5kg
	Equip with 3-ways syringe
Water unit	USA imported air / water tubes
	Large capacity automatic constant temperature system
	Water purification system
	Imported electromagnetic valve
Assistant`s module	3-ways syringe,Strong saliva suction and weak saliva suction
Separable case	"Power input: A.C.220V±22V,single phase three core,grid power supply
	power rate 350VA,water filtration aperture < 90MM,air filtration aperture < 25MM"
Foot control	Starting force > 10N, < 50N fluid protection IPX1,service life > 25000times
Working stools	Moving range 450-600mm,stability,waist protect
Warranty	2 years
